

simple is beautiful

We are Nude

We live in a confusing world; too many choices, too many products, too much 'noise'

But Nude believes things can be different; the remedy simple.

Simple is beautiful, pure, clear, transparent.
Simple is useable, clean, uncluttered, practical.
Simple is convenient, reliable, professional.

Simple is all of these things, and also the reason why things are so rarely simple.

Nude considers actual and specific needs then refines them to their essence. The final object is thus both easy to understand and work with.

Nude believes less equals more that form works best when it meets function. Where everything is appropriate in the right place at the right time the right delivery for the right need.

Nude also believes in an 360 degree approach, where the entire architecture of the dining experience is taken into account. Our products are thus created to enhance and enliven the atmosphere of dining, whether in a bar, bistro, or restaurant.

Nude glassware is always fit for purpose. It is practical, sturdy, and usable. We pay huge attention to our clients needs, and never lose sight of the need for functionality.

This idea of practical and aesthetic integration is the guiding principle behind Nude, and is reflected both in our mind set and our culture.

The result is our promise reflected in glass.

It is simple...

It is Nude.

The Nude Style and Design Vision

Contemporary

One of our missions is to design and create collections of lead-free crystal glass specifically manufactured for the hotel and restaurant industry. Our focus is on delivering elegant, practical, and relevant solutions for the modern dining and entertaining experience nothing more, nothing less.

Simple

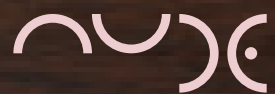

Nude believes simple is beautiful, that form is function, and less is more. This is equally true when it comes to the way we do business. We like to build straightforward, simple, and long-term relationships serving the needs and requirements of everyone involved.

Sensuous

Nude takes pleasure seriously and recognises the importance of establishing a dynamic and vibrant atmosphere. Attention to detail is paramount, yet at the same time there must always be room for people to feel comfortable, to breathe. Nude glassware supports and embellishes rather than overwhelms, the immaculate crystal adding a sense of refinement and beauty to any environment.

Experimental

Nude is never afraid to take risks. We feel it is the only way of creating something inspirational. Individuality is important, and Nude fearlessly investigates innovative ideas. We are constantly inquisitive and work hard to develop dynamic collaborations with artists and designers. At the same time, we make sure to retain a sense of simplicity and fun.

A new era... A new dining experience.

When it comes to precision glassware, Nude offers a complete solution for the hospitality industry. Known for our design excellence, our portfolio delivers exceptional products. But we believe in simplicity. Nothing should detract from the skill of the chef or choice of the sommelier. The character of the restaurant should be enhanced by the elements it contains rather than dominated. Nude glassware is therefore stunning yet subtle, made to blend perfectly with its surroundings, both honouring and adding to the ambience.

While working to deliver the perfect range of glassware, Nude also focuses on practical requirements.

Our lead-free crystal is designed to marry excellence with dependability and practicality. This respect for the realities of the hospitality industry lies at the heart our relationships with our business partners.

Our dedication and services to Hotel and Restaurant Professionals

Nude Wine

Our extensive range of wine glasses is something Nude are both known for and are proud. We understand that people like wine are varied, with a multiplicity of tastes and needs. To celebrate that fact, we have created a wide selection of wine glasses - both hand and machine made - that we feel serve every purpose.

Nude is also aware of the requirements of the hospitality industry and constantly evolve our collections to suit the zeitgeist, attitude and location.

We passionately feel that the choice of glass enhances the drinking experience. It helps establish the dynamic, and finishes the table in a perfect way. Nude wine glasses also add to the sense of ceremony and theatre. They engage with the emotions, intensifying a sense of conviviality. At the same time, Nude never believes in being overprescriptive. Our products solely exist to enliven, encouraging any atmosphere to shine.

Our wine glasses are therefore made for a myriad of locales from the simple to the ornate, the relaxed to the refined. Nude products illuminate the dining space, delivering a reliable and compelling set of qualities best suited to your needs.

Stem Zero is a simple and elegant range of highly sophisticated glassware made to satisfy the most discerning wine connoisseur.

The glass is so fine and so light that it defies belief. Such is the remarkable quality of the glass that it creates a sensation of weightlessness, that the wine is being held by an invisible force, allowing you to savour the aroma and taste of wine in a way that, until now, was considered unimaginable.

Three deceptively simple wine glasses, the Climats range is brilliantly adaptable for both formal and relaxed occasions. Including a fuller bodied glass for bigger red wines, a slimmer glass for rosé, and a medium glass for whites, each item is perfectly balanced with a fine stem and sturdy base. The lip of the glass is crisp and defined, narrowly tapering towards the brim in order to capture the fullness of the wine's aromas. These are a set of glasses you will want to use again and again.

Nude Signature Collections

The Signature Collections are a series of ongoing dialogues between creative genius, exquisite materials and glass. Nude offers the platform, process, craftsmen and the furnace. The design itself is manifested by the collaborating partner who brings their personal values to the process. The Nude Signature Collections push the boundaries of what's achievable, questioning the creative possibility of things. In doing so they deliver items that are both compelling and original.

Ron Arad

An icon as an architect and industrial designer, Ron Arad has always ignored the notion of formal disciplines and boundaries. He is a creator in the purest sense, his portfolio of work is a testament to his creative genius and free spirit. He defines design as, 'the act of imposing one's will on materials to perform a function.' He is a constant innovator, questioning, challenging, re-thinking and reinterpreting the objects that surround our lives. The Ron Arad Signature Collection for Nude includes iconic pieces such as the 'DecanteRing' and 'Wine Party', both masterfully hand-crafted in lead-free crystal.

Ron Arad

As someone once said: 'Wine is just a conversation waiting to happen.' It is in that spirit the DecanteRing exists. A symmetrical cylinder of perfectly blown glass, this beautiful artefact enables the wine to breathe properly while letting light and movement play around the liquid. The degree of craftsmanship involved is extraordinary, the glass cut and polished to perfection. A wonderful conversation starter.

A flirtatious range including a decanter, jug and two glasses. The way the glass leans, mirrors the way people bend closer to hear conversation or whisper a secret. The shape of the glass also makes reference to the tipsy-like state a party engenders. Also note the upside-down wine glasses. No need to waste time when moving from white to red; a twist of the wrist and one can proceed uninterrupted.

A set of five glasses, the Refine series is appropriate for all wines and champagnes. The red wine glass comes in two options - a narrow and wide body - perfect for both medium and full-flavoured wines. The white wine glasses, like the red, are subtle in design, the lower curvature of the glass either softly rounded, or slightly more flattened for a more distinctive grip. The champagne glass tapers ever so gently towards the rim, trapping the flavours while enhancing the drinking experience. As suggested by its name, a refined yet multi-purpose collection.

Nude Drinks

As well as catering to wine and spirit drinkers, Nude has also created a range of complimentary glasses for other drinks. These work as stand alone items or as part of a set. Nude feels it is important to deliver an integrated experience, where each element of glassware compliments the other. The glasses made for our soft drink range have of course been finished to the exact same high degree of specification.

MIAMI

The Miami collection is a set of three space-age looking glasses. Blending the modern with dramatically retro-styling, the glasses manage to fuse the solid with the ethereal. The base of each glass is a frosted block of crystal, cradling the bowl of the glass itself. The tall glass is wonderful for long summer drinks, the medium glass is working brilliantly for fruity cocktails, and the stunning shot-glass with its deeply curved bowl, is an absolute show-stopper. A fabulously understated collection, yet in the tradition of NUDE, guaranteed to make a statement.

A simple yet stylish coffee glass, the Addict is perfectly balanced with a smooth rim and a strong yet easy-to-grip glass-blown handle. The glass is at once refined yet robust, much like the flavour of the coffee it helps to enhance. Its simple lines, delicately tapering form, widening to rest on a solid base, offers both sophistication and style. It is a discerning glass for similarly discerning coffee-drinkers.

The Delizia is an elegant tasting glass that works particularly well with coffee. Its smooth yet solid base enables you to hold the glass without fear of scalding. The glass itself is crystal clear, allowing you to appreciate the rich colour of the coffee. The rim of the glass is delicate and fine, the bowl is wide enough to permit the aromas to circulate, gently sloping towards the rim, capturing the flavours. For coffee connoisseurs, the Delizia is a welcome item, both enhancing the drinking experience, while providing a perfect ending to any meal.

A solid-based and dramatic coffee glass, the Impulse is sold individually, but makes an arresting display at the end of a meal if part of a collection. The top of half of the glass is clear crystal, tapering gently towards the brim in order to capture the coffee's aroma. The base is beautifully-weighted solid blown glass, with the subtle, almost ghostlike, inscription of the word coffee running around its circumference. The Impulse glass feels wonderful in the hand, the space between the base and the glass, smooth and sensuous, much like the coffee itself.

'Alba' is Gaelic for Scotland, the collection pays tribute to the spiritual home of whisky. The elegant glasses are punctuated by a hand-engraved and cleverly deconstructed Tartan pattern. Each glass is heavy-bottomed, and each carefully tapers towards the brim, holding in the subtle aromas. The decanters, also incorporating the ingenious tartan etching, are punctuated by a unique stopper which leans omni-directionally, inviting the more dedicated whisky lover to point the stopper in the direction of Scotland.

The subtle curvature of the glass base reflects the delightful swirl of a single malt, creating a sense of energy to an activity often perceived to be placid. The 'Camp' collection consists of a decanter and two matching glasses. The glasses are beautifully styled, both heavy-bottomed and feel satisfying in the hand. The decanter has been designed to deliberately reflect a traditional hip flask, an item often passed around a roaring campfire. The integrated brass "X" coasters at the base of the items suggest the warmth emanating from burning logs, not dissimilar to the feeling one gets from tasting a great whisky. The decanter is finished with a solid glass stopper, sitting perfectly in the neck of the bottle. The result is a stylish and imaginative collection, full of character and originality.

Nude Food

To compliment and complete our glassware range, Nude has also created a range of items intended for food presentation, all of them manifesting the same Nude spirit of clean simplicity.

Great care has been taken to design a collection that presents dining at its best, allowing the skill of the chef and the natural beauty of the food to take centre stage. Once again these items fulfil our promise of delivering a practical and fully-integrated dining experience.

A duo of clever serving trays, the Ice Cube range come in a glass with a sand-blasted and frosted effect. Made to resemble blocks of frozen water, they make perfect serving receptacles for ice cream or amuse bouches. If not used for dining, they also work as stylish holders for tea-lights.

Interlocking, the trays can be arranged in a number of ways to present an intriguing centrepiece for the table. They are designed much like a puzzle, the way they come together both ingenious and delightful, like two lovers maybe (hence the name). Being perfectly transparent, the trays present food superbly and can be used for canapés, finger food, or amuse bouches.

FROMAGE

A hand-blown dome of transparent glass, the Fromage makes a stunning table display. Sitting on a circular slate base, the glass is in the form of a giant teardrop allowing air to circulate around the contents. A small vent blown into the glass prevents food from 'sweating'. As the domes are all hand-blown, not one of them is exactly the same. An individual piece and a genuine conversation starter.

Nude Decoration

To complete the dining and hospitality experience, Nude have created a number of expertly-made glass items which we feel add character and personality to the table. Still honouring the sensibility of simplicity and style, these items deliver the finishing touch. We passionately believe that glassware should be a dynamic part of the room, helping to create both atmosphere and theatre. These pieces reaffirm the notion that for Nude, hospitality is not simply about catering, but creating.

An amusing pair of matching water jugs with integrated mouth-blown glass cups in clear or green. The cups, decorated with a sleeping face, also work as a stopper, helping to keep the contents of the jug fresh.

The Eden is an exquisitely manufactured glass terrarium - a miniature garden. A truly dramatic addition to any room, the Orion night light is an extraordinary piece of design. Essentially simple in its make-up, the crystal glass shade resting on a solid concrete base hails back to the Sci-Fi movies of the 1950's. From the designer Tamer Nakışçı this trio of vases are made in an extraordinary clear yet corrugated glass. The rippled effect creates an optical illusion reflecting the different colours of the contents in an almost magical way. Flowers particularly are beautifully presented in these vases, the undulation blurring the stems, bringing into focus the colour of the petals. However the wider versions are also suited to storing newspapers, books or magazines. Simple but unique, these items works perfectly both in a domestic and professional environment.

An innovative range comprising of two elegant crystal vases and two bowls all with an arresting copper base. At once solid yet ethereal, the vases seem to disappear as they reach their apex, allowing the contents to take over the drama. The base suggests the vases are separated into three layers - metal, liquid, air - creating superb visual impact. The shorter of the two vases allows a fuller bouquet of flowers, the sweep of the glass rising from the base mimicking the very growth of a flower itself.

Lead free crystal glass - its benefits.

As you know, design itself is never enough. The hospitality industry is built on usability, longevity, and efficiency. Nude understands this and holds these values at a premium. There are specific benefits of using lead free crystal glass, some practical, some aesthetic. Our machine-made crystal offers high durability thanks to its composition and manufacturing process. It has a ~99% transmission of light and the glass itself has a reflective index of >1.520 reducing chromatic aberration and intensifying its sparkle. The glass is also distinguished by its superior sound, delivering a sharper, more resonant ring. Our glassware can thus be appreciated by all four senses!
